

Deer Repellent

EPA Reg. No. 66676-1 EPA Est. No. 407-IA-1

TREE GUARD®

Deer Repellent

TREE GUARD® is a pre-mixed, ready-to-use deer repellent that sprays on milky-white and dries clear. The active ingredient, Bitrex™, imparts an unpleasant taste to plants. A detection agent lets deer know the plant has been treated. TREE GUARD dries to a clear sheen and resists washing off from irrigation, rain, and snow. TREE GUARD may be used on any non-food plant, and poses minimal risk to deer, plants, humans, and the environment.

- Use on flowers, shrubs, and trees
- Lasts up to 100 days
- Rain resistant
- Ready-to-use

- Apply before deer damage occurs.
- Two light applications are better than one heavy application.
- Wear gloves and wash hands after use.
- Re-apply to new growth.
- Repeat applications may be required to reinforce taste and scent to the deer.
- Product must dry completely before irrigation, rain, or snowfall for proper adherence.
- Rinse spray equipment immediately following use.

Note: Always consult and follow the product label for specific instructions prior to use.

Becker Underwood offers a complete line of nuisance wildlife management products for your specific needs.
